Information:

The QS011 skirting board is an elegant profile with a subtly rounded shape, suitable for modern interiors. Made from durable PolyForce material, it is resistant to moisture and UV radiation, ensuring it won't yellow or crumble under sunlight. The ScratchShield® technology enhances resistance to scratches and mechanical damage. Thanks to the LightGuard® feature, the skirting board works seamlessly with LED lighting, providing even light dispersion without hotspots. A primer coating makes it easy to paint in any color. Installation is recommended using mounting adhesive.
