Price: **€36.00** gross

Manufacturer: Klemp

Referention number: MD105

Information:

The MD105 curtain rail features a curved profile with a height of 10.8 cm and a length of 200 cm, specifically designed for LED lighting. Made from durable PolyForce material, it is resistant to water and UV radiation, ensuring it won't yellow or warp over time. The LightGuard® technology eliminates LED light leaks, providing uniform backlighting without the need for aluminum tape. Its minimalist design is perfect for tall and spacious interiors, enhancing the proportions of the room.
