Manufacturer: Klemp

Referention number: MDB106

Information:

The MDB106 ceiling strip is designed for an aesthetic finish at the junction between the wall and the ceiling. It helps to conceal irregularities and gaps, visually elevating the room and creating a seamless transition between surfaces. Suitable for indoor use in both residential and commercial settings, this profile features a versatile geometry compatible with many interior styles, ensuring compositional coherence without the need to alter the ceiling structure. It is installed using mounting adhesives and can be painted.
