Information:

The MDB115 ceiling strip is designed for LED lighting installation in modern interiors. The geometry of the profile features a dedicated recess for LED strips, allowing for impressive ceiling illumination. Made from ProFoam material, it is lightweight, moisture-resistant, UV-resistant, and capable of withstanding heavy usage. It does not absorb water, deform, or yellow over time. The built-in space for wiring ensures a neat installation. It is recommended to use self-adhesive aluminum foil for optimal lighting effects. Installation should be done with mounting adhesive.
