Price: **€21.00** gross

Manufacturer: Klemp

Referention number: QL006

Information:

The QL006 wall strip is designed for an aesthetic finish on walls. Its angled profile allows for use in both modern and classic arrangements. Made from moisture-resistant and UV-resistant material, it does not swell when exposed to humidity and does not change color under light exposure. The ScratchShield® technology provides increased resistance to scratches and mechanical damage. It can be used with LED lighting—LightGuard technology ensures uniform light distribution without visible hotspots. The surface coated with primer allows for painting with water-based paints to match interior decor. Installation is done with mounting adhesive, requiring no special tools.

Product features

Material	PolyForce
Length	200 cm
Width	7 cm
Collection	Listwy ścienne
Depth	4,2 cm
Colour	White
Waterproof	Tak
UV Resistance	Tak
Finish	Matowe
