Referention number: MD314F

Information:

The MD314F wall strip is a flexible decorative profile designed to conceal wall joints and create aesthetically pleasing divisions in interior spaces. Its classic style makes it suitable for glamour, New York, and modern classic designs. Made from a material that is resistant to moisture and UV radiation, it does not swell in humid conditions or yellow under sunlight. The flexible construction allows for installation on uneven surfaces and curved walls without the need for prior leveling. The strip can be painted with a solvent-free paint.
