Price: **€145.00** gross

Manufacturer: Klemp

Referention number: C5002-4W

Information:

The column base C5002-4W, made from ProFoam material, allows for a durable and aesthetically pleasing finish at the base of the column in both classic and historical arrangements. The material is characterized by its resistance to moisture, UV radiation, and slight mechanical damage, ensuring long-lasting functional properties and a consistent appearance. The base is covered with a primer layer that enables individual painting with water-based paints. With dimensions of 31 x 16 x 31 cm, it can be adapted to standard decorative column shafts. Installation does not require specialized tools—the component is secured using mounting adhesive.

Product features
