Price: **€268.00** gross

Manufacturer: Klemp

Referention number: C3000H

Information:

The Half Column C3000H is designed for indoor applications as a decorative architectural element that can be mounted with a base and cap. The grooves and rounded ends create a classic design inspired by antiquity. It is made from durable ProFoam material, which is resistant to moisture, temperature changes, UV radiation, and mechanical damage, including scratches and deformations. The element is coated with a primer that is ready for painting with water-based paints, requiring no additional surface preparation. Its lightweight nature simplifies installation using adhesive, without the need for specialized tools. It is suitable for use in both private and public spaces with high traffic.

Product features

Material	ProFoam
Length	240 cm
