Information:

Decorative door framing D2512. Designed for installation with strips and pilasters measuring 60-100 cm in width. Its minimalist construction features a smooth, rounded profile without embellishments or embossing. It can be cut to the required dimensions. Quick installation is achieved using mounting glue, with no need for specialized tools. A primer coating allows for painting with water-based paints. Made from a lightweight and durable ProFoam material. Waterproof, resistant to swelling and deformation. UV protection prevents yellowing and discoloration.
