Price: **€99.00** gross

Manufacturer: Klemp

Referention number: QL046T

Information:

The QL046T curtain rail is designed to conceal curtains and ceiling tracks. Made from PolyForce material, it boasts high resistance to mechanical damage, UV radiation, and moisture, maintaining dimensional stability without swelling or yellowing. Dimensions of the rail are 200 x 12 x 5 cm. The wide adhesive surface ensures a secure attachment to the ceiling. Compatible with LED lighting, the profile is designed for the installation of strips using LightGuard® technology, which eliminates the effect of spotlighting and provides uniform light distribution. Easy to maintain, it can be cleaned with a dry or slightly damp cloth. The option to cut the rail allows for perfect fitting to window recess widths.

Product features

Material	PolyForce
