Price: **€71.00** gross

Manufacturer: Klemp

Referention number: D200

Information:

The Aluminium Double Curtain Track D200 is a set designed for installing curtains and drapes on two independent tracks running parallel in a single mounting line. The two tracks, each 200 cm long, are made from powder-coated white aluminum, ensuring resistance to corrosion and an attractive appearance without the need for masking. The 43 mm distance between the inner edges of the tracks allows for smooth movement of both layers of fabric without interference. The set includes 3 ceiling brackets with 6 end caps, 4 end caps for the profiles, 50 fabric hooks, 2 end stops to prevent the fabric from sliding off, and 6 dowels with screws for securing the structure. The moisture-resistant design is also suitable for rooms with increased humidity, ensuring durability and reliable operation of the fabric support system.

Product features

Material	Aluminium
Length	200 cm
Width	2 cm
Type	Podwójna szyna sufitowa
Height	14 cm
