Information:

The NatureLine catio is a lightweight yet robust aluminium structure designed for year-round outdoor use. Thanks to its weatherproof netting, it provides security and the freedom for your pet to spend time outside without you having to worry about them escaping. It is an ideal catio for your garden, terrace or balcony, allowing your cat to enjoy nature in a safe environment. The modular system allows for easy expansion. This prefabricated catio is perfect for caregivers who want to provide their pets with a comfortable and safe enclosure.
