Information:

The Bird aviary enclosure SafeFloor is a durable and lightweight aluminium structure designed for year-round use. Equipped with a composite base strip, it ensures easy cleaning and protection against moisture. A solid galvanized or stainless steel mesh protects the birds and prevents escape. Its modular design allows easy expansion when needed. Suitable for parrots, canaries, pigeons, pheasants, quails, and other species. An excellent solution for private owners and breeders.

Product features

Total height	2 m
Material	Aluminium
Purpose of the construction	For the birds
Mounting method	Easy installation with screws
Frame profile	20x20x1,5 mm
Mesh type	Galvanized
Bottom guard	Yes
Grid size	Esafort 12,7x12,7x1,05; Esafort 19x19x1,45 Esafort; 19x19x2,05; 40x40x3mm
