Price: **€18.00** gross

Manufacturer: Klemm

Referention number: AT-AK301-200

Information:

A 30x30x1.5 mm square aluminum profile, 200 cm in length, made from high-quality 6063 alloy, is a solid structural element with a square cross-section. The 1.5 mm wall thickness provides a balance between lightness and strength, making it ideal for building frames, cages, and lightweight aluminum racks. The raw surface allows for easy customization and assembly with standard plastic connectors. The profile is resistant to deformation and ensures the durability of the entire structure. Lightweight (0.924 kg) and strong, it is perfect for projects that require stability and easy installation.

The size of the discount

Quantity	Discount	Spare
10	2%	above €3.60
20	5%	above €18.00
50	10%	above €90.00
100	15%	above €270.00
500	20%	above €1,800.00
