Referention number: AT-AK603-200

Information:

A 60x60x3 mm square aluminum profile is a strong, stable component for building lightweight structures. The PA38 alloy and 3 mm wall thickness guarantee durability and resistance to deformation. The 200 cm-long profile is ideal for frames, enclosures, and load-bearing structures. Its lightweight design makes transport and installation easy. The raw surface allows for easy integration with other system components. It is suitable for both industrial and hobby projects.
