## Information:

Straight connector / sleeve for 40x3 mm pipe is a robust component made of glass fiber-reinforced PA6 polyamide. It ensures a durable and stable connection of aluminum profiles in frames, cages, and lightweight structures. Equipped with one axle and two sockets, it allows for quick push-fit assembly using a rubber mallet. The black color blends well with various systems. Its light weight of 0.1 kg does not burden the structure. Ideal for building modular frames and simple pipe extensions.
