Information:

Smooth Beech Dowel - Precision and Aesthetics

High-quality rod made of **solid beech wood** with a perfectly **smooth surface**. Beech, as a hard and dimensionally stable material, features a fine, uniform structure that allows for exceptionally accurate cutting, drilling, and sanding.

Perfectly suited for DIY projects and crafts. Typical application areas include furniture making, joinery, toy production, Montessori systems, plant supports, etc.

Product features

Material	Beech
Coating	Untreated wood - for further finishing
Length	100 cm
Finish	Smooth, sanded
